## Gyanda

### The first step towards Enlightenment

(Knowledge Content - What so ever I wanted to know, I know it now).

Gyanda is the first step towards enlightenment. It consists of all the required knowledge and hence solves all the mysteries of the spiritual world which has been always hidden throughout. It is the most important element of the spiritual path. Without this, the spirituality and its goal are in question.

This course provides all the necessary information vested in our spiritual texts and is presented scientifically and logically which makes learning. This course is suitable to all age groups and it allows whole family to participate in learning and knowing everything what they require to be knowledge content. The topics covered in this course have never been discussed earlier and it remained dormant for a long period of time. So, the question is - what our world knows now?

Knowledge of attaining enlightenment has been always private and today it needs to be public as our world needs it.

The course can be opted either in Classroom Learning Mode (English and Hindi) or Distance Learning Mode (only in English). The course material shall be provided at the time of the course.

The participants along with his/her family will be provided with a **Certificate of Gyanda** after passing the examination. His/her entry towards the Jyoti Path or the Spiritual Life then begins.. The course material can also be purchased without going through practical lessons.

The one-to-one coaching is only available to any individual or a family who can understand English or Hindi, if there is spare time with the enlightened master in his own town. But if you are willing to call him to your place then the fees will also include to and fro journey, food and lodging. For this the minimum topics would be ten.
